

## RSS-M50B FIXED BOLLARD

## RSS-M50B BOLLARD ARRAY

### ASTM F2656-20 CERTIFIED

The M50B is crash tested and certified M50 P2 by an independent ISO 9001 accredited laboratory. During the test, the barrier easily stopped a 15,000 pound vehicle traveling 50 miles per hour.

### EASY INSTALLATION

Each bollard ships pre-assembled and totally self-contained from the factory. Bollards are fabricated with the installer in mind. No additional rebar is required, just dig, set, and pour.

### AESTHETIC FLEXIBILITY

The bollards come standard hot dipped galvanized. Additional options include:

- ✓ Stainless Steel Sleeves
- ✓ 10" Decorative Bollard Sleeves
- ✓ Powder Coated Any RAL Color
- ✓ Custom Vinyl Wraps

**Height:** 42 inches above grade

**Weight:** Each bollard assembly weighs 1405 lbs

**Bollard Spacing:** 4' on center

**Foundation:** 16' L x 4' W x 3' H

**Test Configuration:** Array of 3 Bollards
